"IN A BAD WAY"

Many a Norway Reader Will Feel Grateful for This Information

If your back gives out; Becomes lame, weak or aching; If urinary troubles set in; Perhaps your kidneys are "in a bad way."

Doan's Kidney Pills are for weak kidneys. Ask your neighbor!

Local evidence proves their merit. Miss L. A. MacInnis, in rear Beals Hotel, Norway, says: "My kidneys were in a bad shape about three years ago. I suffered terribly from backache and often at night I had to get out of bed and walk the floor, trying to get ease from the pain. My head ached fit to split. My sight blurred and my kidneys were irregular and in my case showed they were at fault. As Doan's Kidney Pills had been used in my home with good results, I decided to get four boxes at Noyes' Drug Store. After I had finished taking them I was cured. I have often spoken to others about what Doan's Kidney Pills did for me and recommend them at every opportunity."

NEWS FROM THE SOUTHLAND

Dear Friends: So many of you have asked me to write to the Advertiser of this winter. I wrote only twice last winter from here, but they were long letters and took up space which is valuable. However, as there are so many of you, all whom I want to reach, without having writer's cramp, and try to give to you some idea of this wonderful land of perpetual summer, I shall venture to ask Mr. Sanborn to censor and print whatever he sees fit to occasionally, as he has said he would do.

We came by Federal Express to Jacksonville, over the Atlantic coast line, and on the way the engine ran over something, damaging it so that we had to draw up on a siding and wait for a new one from Richmond, but our Pullman had some very pleasant people and one at least who had travelled since he was 18 and knew, or thought that he knew, all there was to know about every country everywhere, so we hardly noticed the hours flying by. We had Mr. Parkhurst of Aroostook in our car, too, and he was very interesting to talk with more correctly, to listen to. He was going to Florida to put 5 car loads of seed potatoes on the market. He is over 70 years old and was going to see personally to the distribution of them. He has a wonderful ranch in Washington, where he raises fruits of nearly all kinds, especially great peaches. He brought an apple, big and red, from the train boy for an exorbitant price, which he said was good pay for its beauty. So Mr. Jackson gave him one of our large fine flavored Greenings that he had in his pocket. This, he said, made him a meal lasting, both in flavor and nutriment until luncheon, remarking that "Maine apples couldn't be beat." Truly it is so. They are shipped in here from many places and sell for 7 to 10 cents each and have no taste at all, worse than a Ben Davis.

We came from Jacksonville by Prunella's Special, over the same road. A. C. L., which seemed to us the best way. Trains ran smoother than the Seaboard Air Line as we remembered it last winter. The Cypress trees decked with ruffles of moss standing in swamps of water admiring themselves, like Narcissus, had now and then a touch of Autumn red to live up to the green, and the waving palms along the way told me that I was really nearing the end of my journey.

We saw very little effects from the tidal storm, other than great trees lying prone upon the ground with upheaved roots and now and then a dark shanty blown down or swimming in a pool, still showing evidence that the water had covered that particular section. But any good hearted gale that goes tearing down through Millerville carrying frost and snow might have toppled over those rule-stacked shacks. However, I pitied the occupants, they seem to barely exist and must have been terribly panic stricken.

The laundress here last winter told of the first sight of snow in a dark section one extreme winter spell. She said they all huddled on their knees and "prayed loud and diligently" till the squall passed, thinking the world was coming to an end.

We were welcomed at the station by our landlord, wife and daughter, and driven in their big Oldsmobile to the house where a bountiful hot supper awaited us like returning prodigals. The next day we laid in a store of supplies and were soon settled and it seems almost as if we had never left here. We have motored all over the city and instead of any damage other than at the very waterfront and bridges, we find that the city has grown wonderfully.

The Tourist News says that \$40,000,000 has been put into new buildings and that there are 25,000 more rooms to rent through the state than last year. The crowds in Williams' Park at the City Band Concert this afternoon seemed as large as ever and the season's influx

didn't come for a week or two yet. There was a cold wind blowing from the North (I think it came right down by Jackson farm by the feeling) anyway, it kept St. indoors reading.

The concert was fine indeed and it seems wrong to me to pay \$2.00 to the Scotch Highlanders for three months as the city has contracted to do, while their own City Band has played free every Sunday and holiday all summer up to date. They look so fine in their pure white uniforms and as a speaker said, "would advertise the climate here."

A note was taken yesterday to give them the salary next winter and let them have it to expend in enlarging both company and repertoire.

Now I want to tell you of our Christmas here away from the usual setting of snow and ice and "smoky breaths" from the frosty air. The spirit of Christmas is very evident. The stores are festively decorated with pine trees, holly and mistletoe gathered just outside the city and at every other corner one finds boys selling the horrid bunches to tourists to send North. Every doorway and lawn is naturally trimmed anywhere with the Poinsettias, Hibiscus and Christmas bells, which blossom a rich red on brilliant green shrubs all winter. Every one is shopping and carrying parcels and Old Santa is in evidence everywhere. Every sun porch has its Christmas tree gaily trimmed. I will include a snapshot of ours on the lawn with the children in summer clothes enjoying it. There was a big community tree, a wondrous sight, in Williams Park, Christmas eve, a fine program and old fashioned carol singers in white around the tree, who went from street to street singing carols till the morning chimes from the many, many churches here. The City Band gave a concert after the carol singers left. We went to four trees this one, the Sunday school one, the Primary school one, and our own here.

We were invited out to Christmas dinner, a party of twelve, at a cafeteria, private balcony overlooking the Ave. I wore a voile dress as in August, it was very warm. In the afternoon we all went motoring out to the beach with no wind on. So you can imagine how wonderful the day was.

It was as jolly as any Christmas, as full of cheer and surprises, with no chilly blasts, or icy breaths. But New Years is quite another day. Some of your cold weather has blown away down here, the thermometer registered 38 in the early morning, lowest for five years, but the good old sun soon changes that, never fear! You will notice that the crowds sit and write, or read, while the pedestrians in suit coats or sweaters walk a bit more briskly and the greeting is, "What must it be up North!"

I walked through Dr. Stahl's garden with him the week before Christmas and saw rows of lettuce and radishes and greens all ready to eat, other vegetables in blossom and delicious strawberries ripe enough to eat, while a saucy robin up in the mulberry tree nearby tried to scold us away. We ate our fill of kumquats, which one really enjoys, if, after biting the skin, you squeeze most of the juice onto the ground, then eat them skin and all. The oranges are as fine as ever in flavor, especially the pine-apple oranges. A small one fills a cup full of juice, rich and sweet. The grapefruits were badly bruised by the gale and the tangerines very much so. We get all we want to use right up very reasonable, but they are not fit to ship.

We have met Mr. and Mrs. Plummer of Denver, Colorado, formerly of Waterville, Me. He is uncle to Jennie and Margaret Baker, he spent a few months in Portland with them on the way here for their daughter's health. He says Portland landlords know how to bleed one as well as St. Petersburg, no difference at all. His wife was a relative of Fannie Towne Dinsmore. They wish to be remembered to all old friends there.

We are looking for Mr. and Mrs. Blake next week. A. R. Clark is building a pretty bungalow on 12th Ave. N off Enchild Boulevard, a fine location, near his business. Mrs. Clark is looking very well indeed as who can help it in this Sunshine City, where 364 out of the 365 days each year are beautiful. If you think that an exaggeration, just come and see for yourselves. There are some days you will need a suit, but the light dress, white shoes and straw hat is nearly always in evidence.

Norway is one of the most picturesque delightful, balmy places in summer, but when old King Winter gets it in his icy grasp, it's no use, Florida is the leader, and St. Petersburg they all concede from every state, is the Sunshine City here.

With best wishes for a prosperous New Year to all and a bigger boom for Norway than ever, I am

Sincerely, Eva Bradlee Jackson, Dec. 19, 1921. 52-3

CRAMPS, PAINS AND BACKACHE

St. Louis Woman Relieved by Lydia E. Pinkham's Vegetable Compound

St. Louis, Mo.—"I was bothered with cramps and pains every month and had backache and had to go to bed as I could not work. My mother and my whole family always took Lydia E. Pinkham's Vegetable Compound for such troubles and they induced me to try it and it has helped me very much. I don't have cramps any more, and I can do my housework all through the month. I recommend your Vegetable Compound to my friends for female troubles."

Mrs. DELLA SCHOLZ, 1412 Salisbury Street, St. Louis, Mo.

Just think for a moment. Lydia E. Pinkham's Vegetable Compound has been in use for nearly fifty years. It is prepared from medicinal plants, by the utmost pharmaceutical skill, and superior methods. The ingredients thus combined in the Compound correct the conditions which cause such annoying symptoms as have been troubling Mrs. Scholz. The Vegetable Compound exercises a restorative influence of the most desirable character, correcting the trouble in a gentle but efficient manner. This is noted, by the disappearance, one after another, of the disagreeable symptoms.

WHAT TO DO IF YOU LAY UP YOUR CAR THIS WINTER

Take or send your battery to the Willard Service Station to be stored until you need it. The additional security and convenience of leaving this to us far outweighs the moderate expense.

Dry storage is recommended for all batteries with wood separators, which have given a summer's service.

The plates will be disassembled and carefully stored in a dry place. In the spring, new separators are put in and the battery charged and put in condition for service.

Wet storage is recommended only for the Still Better Willard Battery with Threaded Rubber Insulation, or for a wood insulated battery that has been in service only three or four months.

If you do not intend to run your car this winter, write, telephone or call upon the Willard Service Station immediately for full particulars about the storage of your battery.

MAKE IT KNOWN!

When the cave man started drawing on his little bits of bone he was telling someone something. He was making something known. And it's rather more than likely he was trying to arrange to dispose of his day, a stone axe and get something in exchange. When the next man started writing on his little bits of clay he was telling out the story in a different kind of way. And it's rather more than likely, he was trying to describe the advantages of dealing with a member of his tribe. They were elementary people. With an elementary plan, but they laid a good foundation for the modern business man. And it's rather more than likely, if you try the safe-way way, you'll be selling out to-morrow. What you ADVERTISE to-day.

Ninety-first Birthday

Monday, January 9th, occurred the birthday of Mrs. Eunice Caldwell, the oldest person in town, having been born in Otisfield 91 years ago, the daughter of Joseph and Clarissa Morse Scribner. Mrs. Caldwell's ancestor, Dr. David Ray, was a distinguished officer of the Revolution and one of the first settlers of the town of Otisfield, having built the first mills that were located in this part of the country.

Mrs. Caldwell, with the exception of rheumatism which causes her to be quite lame, is remarkably bright and smart and is interested in all that goes on around her. She was remembered with many cards and callers.

Charles Y. Francis is sick and under the doctor's care.

News was received of the death of Wyatt T. Edwards on Sunday at his home in Otisfield. Comrade Edwards was a veteran of the Civil War and member of the 13th, 25th and 30th Maine Regimental Association, and it is believed there are only one or two veterans left in Otisfield, which sent a large number into the Civil War.

Mrs. Mabel Greenlaw, who has been confined to her room with illness for some weeks, is much improved.

The young men from Bates College who represented the Y. M. C. A. and occupied the pulpits of the churches in town were very interesting speakers and much enjoyed by the church going people. Mr. Gilpatrick, one of the young men, accompanied Mr. Joslin to Welchville in

the afternoon and spoke in the Welchville Church.

Next Sunday, Jan. 15, Rev. D. B. Holl, District Superintendent, will be present at the M. E. Church and occupy the pulpit at the morning service. It is hoped that a good congregation will be present.

OXFORD COUNTY ALIVE TO SCOUTING

The Boy Scouts is not a new organization in Oxford County. We have seen troops come and go, thrive, languish and die for various reasons.

A new era has dawned for the boys of this county. A county organization was formed about a year ago, known as the Oxford County Council of Boy Scouts. Business men are behind it; churches and fraternal orders are working for it. The idea has come to stay and many Oxford County towns have troops in uniform under live Scout-masters.

Harold C. Perham of West Paris, Acting Assistant Executive for Oxford County, advances the following program:

It is based on the principle of equal representation and has as its final goal the successful community backing of the Boy Scout Movement. There will be two committees, the Advisory Board and the Troop Committee. The Advisory Board has entire charge over all scouting in the community, while the troop committee is the body of at least three men who are in closest touch with the working troop and who form the direct official backing to the scoutmaster. In smaller communities, both committees are closely connected in regard to duties. In larger communities where there is more than one troop, the duties of the two committees are more sharply defined. In the latter case there are several distinct troop committees with representatives on the Advisory Board. In case of Community troop, all members of the troop committee belong to the Advisory Board. Where there are several troops, there is one representative from each Troop Committee on the Advisory Board.

The Board consists of one representative from each order in the vicinity, Churches, fraternal orders, American Legion and Board of Trade or Chamber of Commerce have representation and prove active allies to this onward movement.

The aim this year is to cut out all "red tape" possible and put into effect a simple and compact program easily worked and understood. The motto is "service" and cooperation of every one interested in the welfare of boys is expected.

The plan is having unanimous backing in Oxford County where Scouting is in progress. Towns where no organization exists will be canvassed by the Executive Committee and prompt action taken to get these in line with the march of progress.

Banquet and Gifts For Norway Boy

Aaron Yeaton a Norway boy, a member of the faculty at the Amesbury, Mass. High School since 1915 has received more honors at the hands of the appreciative supporters of that institution. He is in company with the football squad and assistant coaches, were given a banquet at the school gym on the evening of Dec. 29. Three hundred and more gathered to celebrate the close of a successful season, more particularly to properly observe a victory over their rivals, the strong Newburyport High School outfit. Rivalry has been the past few years. Aaron Yeaton as faculty coach has worked for one objective, to put his squad across no means land into the Newburyport trenches. It required three years to accomplish the maneuver. Coach Yeaton and his assistants Frank Laney and William Broderick comprised the war college that managed the successful campaign for the wide awake squad to digest and accomplish with a 14 to 7 result.

The banquet was a social success. Speeches, music and a dramatic entertainment made all that could be desired.

During the height of enthusiasm Coach Yeaton was suddenly called to his feet to receive a valuable Masonic ring, presented by A. F. Rice, captain of the football team, in behalf of the players.

Pettingill, the toast-master followed with a check for \$400 as a testimonial from the school committee.

Assistant coaches Frank Laney and William Broderick were each presented fifty dollar checks as a slight token of esteem.

Local baseball fans will be pleased to know Frank Laney of football fame was prominent on the Radcliffe team in Norway during the days of Bill Beahm. He is making good in his chosen profession.

That Coach Yeaton has developed a real team can be proven by their work the past season. They have won 6, lost 2 and held Salem and Colby Academy scoreless.

Games played 10, Total score Amesbury 189, opponents 59. Six years ago Mr. Yeaton commenced to build for the future and has seen from that institution many young athletes who are making good in college, and in the great University of hard knocks. Having passed through a rugged experience to secure an education, he applies a personal touch to his system of coaching and becomes a counselor and friend to every student.

The Amesbury Daily News comments as follows: "Seldom has a schoolmaster of the High School stood so high in the community as does Mr. Yeaton. He has been unequalled as a trainer in athletics, his influence has been of the highest in his intercourse with the boys and it would today be a difficult matter to fill his place. Above the value of book learning is the spirit of ethics which the boys carry with them through life. A man who can command the respect of the boys can carry through such a contest as the modern football game influences for good. When one of such sterling qualities as Mr. Yeaton is secured, it is a distinct asset to the school life and the community."

Mr. Yeaton was graduated from Norway High School in 1911 and Colby 1915, and won his letters and honors with his athletic talents. The same high mark was reached in the class rooms.

Catarrh Does Harm—Get Rid Of It.
Catarrh of the nose or throat when it becomes chronic weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice. It is a constitutional disease and requires a constitutional remedy.
Take Hood's Sarsaparilla, which by purifying the blood removes the cause of the disease and gives permanent relief. This alternative and tonic medicine has proved entirely satisfactory to thousands of sufferers in three generations.
If there is biliousness or constipation, take Hood's Pills.

NORWAY AND VICINITY

Notes From the Red Feather Farm, Norway, Maine

For the month of Dec. 1921, 400 Single Comb Red Pullets produced 6878 eggs, at an average price of 70 cents per dozen.

These figures show that each pullet produced one dollar worth of eggs for that month. It cost one half cent a day per hour for feed and I might add that one hour per day amply cares for the entire 400. These birds are housed in a new two story structure consisting of two pens 175 down stairs and 225 on the upper floor. The building was designed by the proprietor and is proving to be a very desirable type. Its dimensions are 40ft. x 20ft. with space taken on the ground floor for a grain room. It is equipped with electric lights but thus far no artificial means of continuing daylight for higher egg production has been used. The pullets have so far made a better record for January than for December. Other pens at the farm are working commendably.

Ten Newtown coal burning brooders will be added to the equipment this winter to another 3500 eggs for the month of April. More incubators of the Standard Cyphers type will be added making a capacity of over 6000 eggs to handle the increasing growth of the day old chick business.

The mating pens will be made up in the immediate future and if nothing happens business will be in full swing by March 1st. This is the beginning of the season of the year that is most attractive to those interested in Poultry husbandry. Visitors are always welcome.

Wearry Club Improvements

Ned Packard took down the store shell and carefully placed it in the attic of the barn. Future tenants may need it.

The paper was selected by John Woodman and Dell French with others assisting. Gentle shades of lavender and pink resulted with a flaming border of black and white scroll work.

Harry Judkins put on the paper and the paint. The latter going on last. The diversity of opinion as to shade of color was the cause. It had to match the paper and no one was able to decide until the paper dried out. Mell Sampson and Elgin Greenleaf finally agreed.

The Digger Index Chief, all the way from the Pacific Coast by parcel post, adorns the archway over the glaring letters, "Post no Bills." The Sell Foster Library has been dusted and rests on a table in the corner. It is easy of access and can be seen from the window by passers-by. It gives an outside literary effect to strangers.

War-clubs, curios and calendars hang on the walls. A nice nicely mounted 12 point deer head with long nose, big eyes and large ears. The property of Mr. Nash the taxidermist loaned to beautify the place. The new chairs have not yet arrived. Neither has the revolving cuspidor, self cleaning spout and pail but are on the way.

Norway Grange

The Grange will have a picnic dinner, Saturday, Jan. 14th, at the American Legion Hall, Shaw's Orchard will furnish the music. The bus will go to South Paris after the dance.

Ethel Everett brought to the Advertiser office, Monday, some real pussy willows which she had picked Sunday, Jan. 8th, in the vicinity of Water street. Among the guests registered at the Congress Square Hotel, Portland, were H. O. Clark and C. W. Clark, of Norway, Maine.

William Pledge of Lawrence, Mass. arrived Sunday for a visit of two weeks with his brother James Pledge.

The men of the Congregational Society are to give an Old Folk Concert in the near future. Rehearsals have commenced.

CENTRAL MAINE
POWER CO

THE HOPE OF MAINE'S FUTURE LIES IN HER YOUNG MEN AND YOUNG WOMEN.

If we keep the young men and young women in Maine, we win.

If the South and West get them—they win—and WE LOSE.

To hold the best of our boys and girls here at home, we must give them OPPORTUNITIES.

Opportunities are linked with our investment money—and go West if we send our capital there—or stay here in Maine if we keep our investment money at home.

Maine's destiny and our children's future are assured if we invest at home.

The home investment that should help most to build Maine is an investment in Maine's home-owned, dividend-paying company—Central Maine Power Company.

GAINS REPORTED BY BUSINESS MAN

Resident of Salt Lake City Adds Ten Pounds While Wife Gains 28 lbs. in Weight

John J. Perry, 370 Quince St., well known Salt Lake City, Utah, business man, in reporting remarkable gains in weight both by himself and his wife, says: "My wife gained twenty-eight pounds and I gained ten pounds in a few weeks by taking Tanlac. The change in Mrs. Perry is all the more remarkable, as she had been going down steadily for four or five years. She got no nourishment from her food and I don't believe she averaged three hours sleep out of the twenty-four."

"While my condition was not as serious as hers, I had been under the weather for some time, had no appetite and was bothered a good deal by indigestion. Tanlac has certainly proved all and more than is claimed for it with us."

Tanlac is sold by A. L. Clark Drug Co., Norway; Stovell Bros., Locke's Mills; R. E. Pinkham, East Waterford; W. H. Brown, East Stoneham; Heald, Stearns & Kimball, Lovell; H. L. Hutchins Co., North Fryeburg; L. R. Rounds & Co., Waterford, and P. G. Barrett, Welchville, Me.
